Off-peak usage rate	N/A	18.2c/kWh (10pm-7am)	18.9c/kWh (10pm-7am)
Solar feed-in tariff	N/A	N/A	6.5c/kWh
Contract length	No lock-in	No lock-in	No lock-in
Sign-up bonus	\$50 credit	\$100 credit	\$120 credit
Pay-on-time discount	None	3% off usage charges	5% off usage charges

Basic Saver

A simple, flat-rate plan with no time-of-use pricing. Ideal for customers who want predictable bills and don't want to think about when they use power.

Family Flex

Time-of-use pricing with cheaper off-peak rates between 10pm and 7am, making it well suited to households that run appliances like dishwashers, EV chargers, or washing machines overnight. Includes a 3% discount on usage charges when bills are paid within 14 days of the due date.

Solar Advantage

Designed for homes with rooftop solar. Includes a competitive solar feed-in tariff of 6.5c/kWh and the highest pay-on-time discount of the three plans.

General Terms

- All plans are billed monthly based on actual meter reads or estimated reads where a read is unavailable.
- Prices shown are indicative for Victoria, Australia and may vary by distribution zone.
- Customers can switch between Aporum plans at any time at no cost, effective from the next billing cycle.
- Concession card holders may be eligible for government rebates; contact support for details.
