

Aporum Energy — Support & Complaints Handling Guide

This guide describes how Aporum support requests and complaints are categorised, prioritised, and resolved. It is used by both customer-facing staff and the Aporum AI support assistant.

Inquiry categories

Category	Typical examples	Default priority
Billing	Bill too high, payment plan request, refund	Medium
Complaint	Service dissatisfaction, disconnection dispute	High
Support	App issues, meter reads, general questions	Low
Sales	New sign-up, plan change, moving house	Medium

What the AI assistant can resolve automatically

- General questions answered directly from the Plans & Pricing guide, Billing FAQ, and Terms summary.
- Straightforward billing questions such as due dates, accepted payment methods, and how pay-on-time discounts work.
- Requests to explain a plan, compare plans, or explain the sign-up process.
- Low-complexity complaints where a clear, documented policy answer exists (e.g. explaining the disconnection notice process).

What must be escalated for manual review

- Any request involving a specific account balance, meter read, or payment history the AI cannot verify from the ticket alone.
- Complaints alleging harm, financial hardship, threats of disconnection, or life-support status.
- Requests for refunds, compensation, or goodwill credits above \$0 (require human approval).
- Any inquiry where the customer explicitly asks to speak to a human, or where the AI's confidence in its answer is below 70%.
- Legal, regulatory, or Ombudsman-related correspondence.

Escalation handling

When a ticket is escalated, its status is set to 'manual_review_required' and a notification email is sent to the support team inbox with the ticket ID, customer details, and a summary of why it was escalated. The customer receives an acknowledgement email confirming a specialist will respond within 1 business day.

Tone guidance for automated replies

- Always polite, warm, and concise.
- Acknowledge the customer's issue before providing the answer.
- Never guess at account-specific figures (balances, exact usage) that are not present in the ticket.
- Sign off as 'The Aporum Support Team'.
